Gra

- 100

Urban areas: 1/ 5.000

Each Unit of Strategic map presents a table with the population exposed to the indicators, Lden and Lnight in 5 dB ranges.

Example of tables with the number of people (in hundreds) exposed to bands of Lden and Lnight.

The **report summary** is a document that summarizes:

•the main characteristics of the study

•the local and regional legislation in the zone

•the description of the roads, and an analysis of the conflict areas with the possible solutions.

Process:

- **1.** The identification of the most exposed zones
- 2. To establish a diagnosis

Maps are not only paper

Noise mapping Quality control

evaluación y gestión del **ruido** ambiental

assessment and management of environmental noise

A nice bunch of people
